# Reflecta-Thermofloor™

**Reflecta-Thermofloor™** is the smart choice for your building's underfloor insulation. With **Reflecta-Thermofloor™**, you can save as much as 50% in labour costs and fixings. Suitable for both residential and commercial floors, **Reflecta-Thermofloor™** can be installed without special fixings.

Insulation	Summer (Downwards)	Winter (Upwards)
Reflecta-Thermofloor™	RT 2.0	RT 3.8

- Thermal calculations by James Fricker as per AS/NZS 4589.1&2
- Includes floor covering and underlay – R0.3

The specially designed format of **Reflecta-Thermofloor™** allows the product to be rolled out over sub-floor framing and then fixed in place and secured by the sheet flooring that is installed using conventional fixing requirements for sheet flooring such as suitable particleboard, compressed fibre cement sheeting or similar.

## Features – Fact vs Fiction

- 15 Year Warranty
- Suitable for Condensation Control in Floors
- Two Outer Layers of 99%+ Pure Aluminium, with XHD Rating
- 20m x 1500mm Roll
- 4.0mm Foam Core
- AS 1530.2 & AS/NZS 1530.3 Compliant

## Key Benefits

- Offers you a Fibre-Free Insulation
- Saves you the Cost of Expensive Brackets or Other Special Fixings
- Saves you 50% Labour Cost
- No Special PPE or Waste Disposal required
- Reduces Conductive Heat into Structures
- A Good Medium for Managing Condensation
- 1500mm Wide Rolls offer Ease of Handling
- Reduced on site Wastage and Improved Coverage compared to Foil Faced Glasswool
